### PREFACE

The following Tables of Organization have been compiled for the convenience of students in the solution of problems at the Medical Field Service School. Certain of the tables have been amplified by block charts in order to provide a means of rapid visual comprehension of the specified unit. These tables are correct as of March 1, 1941 and proper notation should be made of any changes published after that date.

The authentication of War Department tables has been omitted for convenience of spacing. The originals bear the following authentication:

By order of the Secretary of War:
